

BUDAPEST SEMESTERS IN MATHEMATICS

SUMMER PROGRAM

THE PROGRAM

Experience Budapest Semesters in Mathematics, the highly acclaimed study-abroad program, for eight weeks of your summer. Live in the historic European city of Budapest, take introductory or upper-division courses from master instructors, and enjoy the excitement of living in a culture known for excellence in mathematics education and research.

ACADEMICS

- Eight weeks of instruction
- Classes taught in English
- Intensive full-credit courses
- Small classes
- Focus on problem-solving, student creativity and group learning

COURSES OFFERED

- Introductory Abstract Algebra
- Combinatorics
- Real Functions and Measures
- Advanced Mathematical Problem-Solving

Further information on the summer courses offered is available online at www.budapestsemesters.com/summer-program.

HOUSING

Students will be offered housing in furnished apartments near the historic center of Budapest.

DATES OF THE PROGRAM

Mid-June to the beginning of August

SUMMER PROGRAM

APPLICATION AND COSTS

Students need to fill out the online application, provide an official transcript and submit two letters of recommendation from mathematicians.

Application and tuition information is online at www.budapestsemesters.com/summer-program along with estimates of housing and other costs.

APPLICATION DEADLINE

All materials must be received by March 1. Early applications are encouraged.
