

# Spend a Semester Studying Mathematics in Budapest, Hungary

BUDAPEST SEMESTERS  
IN MATHEMATICS

## EXPLORE THE OPPORTUNITY

Budapest Semesters in Mathematics (BSM) is an academically rigorous program for motivated undergraduates who wish to study math in the beautiful city of Budapest.

BSM classes are taught in English by eminent Hungarian professors. The program is devoted to problem-solving and student creativity. Courses such as “Combinatorics” and “Conjecture and Proof,” strongholds of Hungarian mathematics, are just two of the many classes offered each semester.

Located on the river Duna (Danube), the city of Budapest offers opera, ballet, art museums and much more. BSM students can travel and sightsee, enjoy a sporting event or simply get immersed in the Hungarian culture.

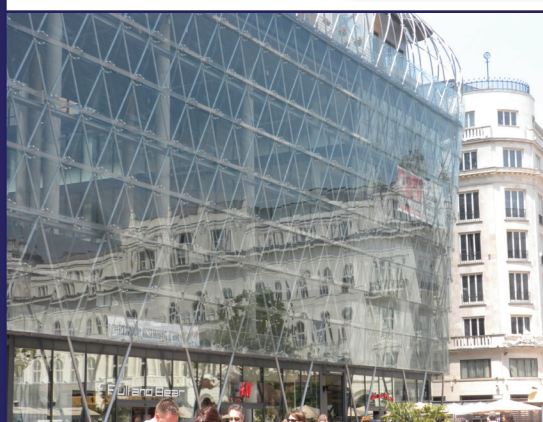

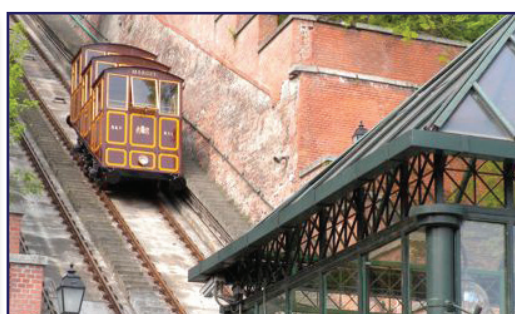

## PROGRAM SPECIFICS

- Qualified math students from colleges across the United States and Canada participate.
- Credits are transferable to North American colleges and universities.
- Classes are small, and students receive individualized instruction from the faculty.
- Special lectures by Hungarian mathematicians are offered throughout each semester.
- Students are housed in furnished apartments near the historic city center.
- Tuition and other costs for the program are moderate.

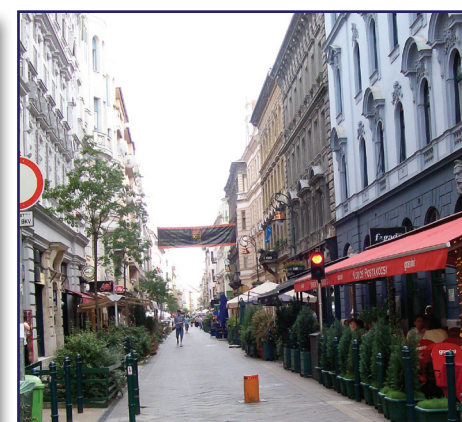

*“I tell everyone I meet that they should go on this program. It was the best semester of my entire life!”*

— Paul S., BSM Alum, Harvey Mudd College

*“I studied more mathematics than I ever had and loved it. I made friends that I will have for life, and who actually wanted to talk math. I discovered a city and watched as it became a home to me.”*

— Angela J., BSM Alum, Valparaiso University

## APPLICATION DEADLINES

Fall Semester – April 1  
Spring Semester – Oct. 15  
Summer Semester – March 1

## PROGRAM START DATES

Fall Semester – first week in September  
Spring Semester – first week in February  
Summer Semester – third week in June
